

TAKES RIVER TO

ENTERTAIN WIFE.

Fobacco King Duke's Fountain Play While the Woolen Mills Wait for Power.

Somerville, N. J., Aug. 2.—Because James B. Duke, president of the American Tobacco company, used nearly all of the power of the Haritan river to furnish a brilliant display for his newly gotten wife, the Haritan woolen mills were almost obliged to shut down and were able to continue only after the manager of the estate decided that Mr. and Mrs. Duke had gone on an auto trip for three weeks it would do no harm to let the water which had been running to waste in the fountains and in the artificial waterfalls of the estate be used to make woolens.

Mr. Duke has on his estate artificial lakes covering several hundred acres, many fountains and waterfalls, supplied by water from the Haritan river by the means of a large pumping plant which was recently installed on the river bank above the Haritan woolen mills.

ACCIDENT MARRIED RACE.

J. L. Pickering Thrown from Bicycle and Dashed Against Post.

Providence, R. I., Aug. 3.—An accident which is likely to prove fatal married an interesting programme of motor cycle races held in this city Thursday, in connection with the Old Home Week celebration. In the final heat of the five-mile handicap race at the Hillsboro track late in the afternoon, J. L. Pickering of this city was thrown from his machine by a punctured tire and dashed against a post. His skull was fractured just behind his left ear and he received other injuries which physicians at the hospital considered very dangerous.

The fact that the track is a half-mile affair and adapted for trotting rather than motor cycling is partly responsible for the accident. The corners were short and dusty and rather dangerous for the fast cyclists.

NEW TURN TO HAU CASE.

Woman Makes Statement Which Tends to Exculpate Convicted Man.

Karlsruhe, Baden, Aug. 3.—Interest in the Hau case has been aroused again by the statement of a woman, Fraulein Eisele, who said that she had heard a shot on the day of the murder of Frau Muller at Baden-Baden, after a cab had driven off towards the station with a man, presumably Hau. Experiments proved that it was possible to hear shots fired near the scene of the murder at the point from which the cab departed. The authorities are continuing the investigation.

100 Doses \$1

True only of Hood's Sarsaparilla, in the usual (liquid) form; or in the new and equally effective tablet form.

100 Doses \$1

IN HIGHLAND ATTIRE.

Scots Had Picnic and National Games at Boston.

Boston, Aug. 2.—The annual picnic and revival of Scottish games by the Boston Caledonian club was held yesterday, and attracted Scotchmen from all parts of New England. Members of the Boston club and many visitors paraded the streets on their way to the grounds, and presented a unique spectacle arrayed in the highland costume and marching to the accompaniment of life and bag-pipe.

The athletic games had a wealth of high class performers, among them Alfred Strubbs, the English professional track champion, who ran three miles in an attempt to establish a new record.

The programme included many distinctive Scottish games and pastimes, including the highland fling, bag-pipe contests and other matches in which the Scotch people are particularly proficient.

ROSTRAND ILL.

Noted Dramatist Suffering from Appendicitis.

Paris, Aug. 3.—M. Edmond Rostand, the famous dramatist and author of "Cyrano de Bergerac," who was stricken with appendicitis about a week ago, is now suffering from pelvic abscesses and his condition causes great alarm.

His mental state has been a source of distress to his friends ever since his literary productivity was attacked several years ago by St. Eberly Gross of Chicago, who charged that "Cyrano de Bergerac" was a plagiarism from "The Merchant Prince of Cornwall."

The charge was upheld by the American courts, which awarded to Mr. Gross nominal damages of one dollar.

PILES! PILES! PILES!

Dr. Williams' Indian Pile Ointment will cure blind, bleeding, ulcerated and itching piles. It absorbs the tumors, kills the itching at once, acts as a poultice, gives instant relief. Dr. Williams' Indian Pile Ointment is prepared for piles and itching. Every box is guaranteed. Sold by all druggists, by mail for 50c and \$1.00. Sold by C. H. Kendrick & Co.

SLAUGHTER

CONTINUES

Boston Put it all Over St. Louis, 11 to 3

GLADE WAS BATTED HARD

Winter, Kept the Hits Pretty Well Scattered and the Home Team Won with Ease.

Boston, Aug. 3.—The Boston Americans continued their slaughter yesterday afternoon, with a new victim, St. Louis, the Old Homers, defeating the Browns by the score of 11 to 3 with ease. The awakened sluggers of the local team pounded Glade numerically in the first two innings, scoring eight runs in the first, while Winter held the visitors safely within distance. Unglaub was put out of the game for kicking at a decision, and Shaw replaced him. It was a game of long hits, two home runs, two triples and three doubles being made.

Barrett's hit that was good for three bases and Congalton's home run gave the home team two in the first inning. A pass to Knight, Wagner's two-bagger, and Criger's single brought in two as a starter in the second. Winter and Barrett drove home safely, and then Sullivan broke the tie with a single to center. Congalton sacrificed and on Unglaub's out Barrett scored. Grimshaw brought in Sullivan, but he himself was out stealing, ending the inning.

In the fifth Shaw, who replaced Unglaub after the latter was put out for kicking, slammed out a triple and Grimshaw's out scored him. Niles broke the tie for St. Louis in the next inning by driving in a home run, while in the same round Boston got two more on a fielder's choice, Sullivan's double and Congalton's single.

St. Louis made it three in the seventh on two singles, a pass and Grimshaw's muff of a Texas leaguer. The score:

St. Louis . . . 0 0 0 0 1 2 0 0 — 3 8 3
Boston . . . 2 6 0 0 1 2 0 0 — 11 12 2
Summary: Earned runs, Boston 8, St. Louis 1; home run, Congalton, Niles; three-base hit, Barrett, Shaw; two-base hit, Wagner, Glade, Sullivan; sacrifice hit, Congalton; struck out, by Winter 2, by Glade 2; base on balls, by Winter 2, by Glade 2; hit by pitcher, by Glade.

X-SCIENTIST TO

PENITENTIARY.

Byrne Let His Little Girl Die Without Calling Physician—Sentence of Thirty Days.

New York, Aug. 3.—Clarence W. Byrne, a Christian Scientist, was sentenced to 30 days' imprisonment in the penitentiary in the court of special session yesterday for allowing his 6-year-old daughter, Viola, to die of pneumonia without calling in a physician. This is the first jail sentence for this offense on record in the city of New York.

An investigation by the coroner and the county medical society showed that the father placed such faith in Christian Science healers that he allowed the child to succumb from lack of proper medical attention. His religious belief and his aversion to the medical profession was the only defense he offered in court.

MARINE POLICEMEN TO

GUARD RUSSIAN CZAR.

German Authorities Taking Every Precaution for the Meeting.

Berlin, Germany, Aug. 3.—Emperor William of Germany and Emperor Nicholas of Russia are to meet today in the Baltic sea off Swinemünde. Emperor William will be on board the imperial yacht Hohenzollern and the Russian emperor on his yacht, the Standart. The German Baltic fleet will be present to give color to the occasion.

The German authorities are taking every precaution to ensure the safety of the Russian emperor. Large numbers of marine policemen will be sent to Swinemünde from Stettin to do guard duty on shore.

TORNADO WRECKS THE TOWN

OF MARQUETTE, IN KANSAS

Twenty-seven Persons Were Killed There in a Storm in 1903.

Wichita, Kan., Aug. 3.—The division office of the Missouri Pacific railroad was advised Thursday night from Geneseo that a tornado had wrecked Marquette. Wires have failed and the report cannot be verified.

Marquette was destroyed by a tornado in 1905, twenty-seven people meeting death.

RAMESES THE GREAT COLOSSAL

FRAUD SAY EGYPTOLOGISTS.

His Vanity Caused Him to Have His Name Inscribed to Fool Those Coming After.

London, Aug. 3.—Egyptologists claim they have discovered that Ramses II. was a fraud, and that he was not entitled to the appellation of "Great," which his forerunners have given him. Recent explorations, it is stated, have developed the fact that the many temples and monuments bearing his name, and therefore supposed to be his work, existed a thousand years before him. The explorers believed the king was vain and caused his name to be cut everywhere.

Prof. Naville, one of the official explorers of antiquities in Egypt, had this to say about Ramses: "The more we discover about Ramses the more convinced we are that he was a fraud. He was not great in any way, but his vanity was colossal. To satisfy this he conceived the notion of causing his name to be inscribed on every temple, statue and monument that he imagined would stand the test of time. The plan succeeded only too well for many years. In consequence of it, explorers united in deciding that he must have been a great king. Now we are beginning to find him out."

SAYS JOHN D. HAS

POOR ART TASTE.

New York Architect Says That Pocantico Hills Layout Is "Most Amusing."

Cleveland, O., Aug. 3.—John M. Carrere, architect of New York, while discussing plans for the city's group plan of buildings, ridiculed John D. Rockefeller's architectural and landscape ideas.

"I know nothing of his Forest Hill," said Carrere, "but I have been over Pocantico hills, and it is a most amusing lay-out—a word which seems to express the condition especially well. I have been given to understand that Rockefeller is no lover of architectural beauty, but it seems as though he could have done a little better than he did at Pocantico."

"I like William Rockefeller's place much better. John is situated in the center of a district, the people of which he could not call his folks. They are all local people. He can have found but few friends there."

GOULD MAY FORCE ENGLISH

MEN TO PLAY IN AMERICA

Says He's Got the Title and It Is Up to Them to Come and Get It Back.

New York, Aug. 2.—Jay Gould reached New York yesterday on the liner Maestral after winning the court tennis championship in England and visiting his aunt, Miss Anna Gould, the former Countess de Castellane, in Paris.

"I shall not go back to England to play court tennis next year," said young Gould. "Now that I have the title, I think the Englishmen ought to come over here."

"The countess is looking much better since her separation from Count Boni," he continued. "She hasn't got that worried look that she used to have. No," he said, slowly, "I don't think she will marry again right away and surely not the Prince de Sagan."

Young Gould will resume his studies at Columbia this fall.

SENATOR BEVERIDGE TO

BE MARRIED ON AUG. 7.

Miss Eddy Becomes His Wife at Ambassador's Home in Berlin.

Berlin, Aug. 3.—It was definitely settled yesterday that the wedding of Miss Katherine Eddy of Chicago, sister of Spencer F. Eddy, first secretary to the American Embassy here, and Albert J. Beveridge, United States Senator from Indiana, is to take place Aug. 7, at the residence of Ambassador and Mrs. Tower.

The embassy yesterday obtained the necessary waiver of the authorities to the requirement that one of the persons to be married shall have resided seven days in the district of the registrar, but in spite of this, Senator Beveridge will be obliged to sign a pile of documents three inches deep before the necessary permit can be issued. The senator will arrive here from Berlin tomorrow.

The wedding is to be private. The religious ceremony performed by the Rev. Thomas Hall of New York will be preceded at the registrar's office by the civil ceremony.

RAIL CASUALTIES 20,363

IN U. S. FOR 3 MONTHS.

Persons Killed 421, Injured 4,920—Rolling Stock Loss \$3,536,110.

Washington, Aug. 3.—The number of railroad accidents in the United States involving loss of life and property, during the three months ended March 31, according to accident bulletin No. 23 issued today by the Interstate Commerce Commission, was appalling—although the number of lives lost and of persons injured was somewhat less than during the previous three months.

The total number of casualties was 20,363, as compared with 20,944 reported in the preceding three months. The total number of passengers and employees killed was 421, and the number of injured 4,920—a decrease of 73 in the killed and 20 in the injured. The damage to cars, engines, and roadway by accidents amounted to \$3,536,110.

WANTED HIS 30 CENTS.

Bearer Holds Up the Funeral for His Pay.

New York, Aug. 3.—Strange things happen in this cosmopolitan city. Ascertaining that 30 cents was promised him to act as a pall bearer at a funeral, Michael Burns of 226 Madison street held up the funeral and refused to allow the coffin to be placed in the hearse, when the undertaker handed him five cents.

He said that until he got the other 45 cents the funeral should not proceed, but a policeman was called and Burns was locked up.

Burns said he was passing when a funeral was in progress, and he was ordered upon to assist in carrying the coffin.

BRYAN TO

START IN OHIO

His Friends Plan to Capture Delegation

SAYS HE WILL NOT DECLINE

Party's Nomination—Wait Till Next Year to Open Campaign—Glenn Says the Time Is Not Right for a Southern Candidate.

Columbus, O., Aug. 3.—In an interview given out here with the consent of William Jennings Bryan, Harvey C. Garber, chairman of the State Executive Committee, announced the candidacy of Mr. Bryan for the presidency. The interview given out by Mr. Garber calls the Bryan men to arms, and announces to them that the fight next year will be made for a delegation for the Nebraska. Nothing will be done this year, says Mr. Garber, because in his opinion and the opinion of Mr. Bryan it is folly to make a fight a year in advance of the convention. Mr. Garber said:

"While no action looking to the selection of delegates to the next National Democratic Convention will be taken in Ohio this year, it is proper to say to the Democracy of the state that Mr. Bryan will not decline the nomination if tendered when the convention meets. The overwhelming sentiment for him to lead the party is not stronger in any state than in Ohio, and the correspondence and advice received by me during the semi-frantic agitation for some other candidate makes it clear that it would be not only folly, but absolutely fatal to the Democratic state, congressional and many county tickets if the overwhelming demand for Bryan were set aside by subtle or snap plans. What is here said is not without the knowledge of Mr. Bryan himself, and his friends throughout the state should govern themselves accordingly."

TIME NOT RIPE FOR SOUTHERNER.

Glenn Says the Country Is Not Ready For a Candidate From There.

Raleigh, N. C., Aug. 3.—Governor Glenn, in an interview in reply to newspaper statements regarding him, declared the time is not ripe for a Southerner to be the Democratic presidential candidate. He said: "I am very much flattered by the kind things that are being said of me, but speaking in the interest of the Democratic party I do not think that the time is ripe for a Southern man to be its presidential candidate. If it was that time, a great many men in the South better known and better prepared to fill the position than I am, and so I am content to work for the state's interest and the general good inside of my own state."

BUSSE ABANDONS BUSINESS.

He Will Devote Time to Duties of Mayor of Chicago.

Chicago, Aug. 3.—Mayor Fred A. Busse has retired from active business life, disposing of his entire assets of the Busse Coal company, doing the biggest delivery business in Chicago, to the Peabody Coal company. In a letter to the customers of the Busse company, the mayor said he felt unable to do justice to his official duties and at the same time conduct a private business. He preferred to give up his business rather than neglect his duties as mayor. Mayor Busse started on his career as a coal hauler when he was eighteen years old. "I soon had eighteen horses," said the mayor, proudly. "I now have 167. Twelve years ago I got into the business of selling coal myself, and now the company does the largest business in the way of wagon deliveries in Chicago."

A TALE OF TROUSERS.

Who Stole Teddy's Dress Trousers, as Well as Kelly's?

Oyster Bay, N. Y., Aug. 3.—The president with much enthusiasm told his callers of a telegram that Theodore, Jr., sent shortly after the close of the spring term at Harvard to his roommate and partner in crime, Edmund Kelly. It seems that Kelly's best trousers disappeared when young Roosevelt left for home. In dismay he sent Theodore, Jr., this message:

"Where are my dress trousers? I need them at once."

In reply Theodore wired: "Don't get anything about your trousers. Can't even find my own."

The president's visitors laughed heartily and Theodore, Jr., looked immensely pleased.

TALK OF MAGILL PACT.

Lawyer Says Woman Was Induced to Kill Herself.

Clinton, Ill., Aug. 3.—Chloroform and a trace of arsenic were found in the contents of the stomach of Mrs. Pei Magill, first wife of Fred Magill, according to an expert chemist's report just made public. In connection with the general belief that the woman committed suicide, L. H. Herriek, special state's attorney, said:

"The chemist's report does not weaken our case. We contend that a suicide compact existed. The law makes it a murder if one person agrees with another to commit suicide and deliberately deceives the other person."

BLEW SNAKE FROM NOSE.

Here Is the Latest Real Nature Fake.

Danville, Ill., Aug. 3.—Sherman Gallians, 18, son of William Gallians, a farmer, felt a peculiar sensation in the region of his nose, which had been preceded by itching and a slight flow of blood. The young man commenced blowing his nose to get relief, and, to his amazement, forced from one of his nostrils a snake nine inches long and about the circumference of a knitting needle or hat-pin. The snake has been exhibited to a number of physicians, but none would venture an opinion as to the snake's history and the way of its existence.

DISCOVERIES IN MEXICO.

Superimposed Villages Found By Excavation.

Mexico City, Aug. 3.—Leopoldo Batres, director of the Archaeological Works of Mexico, reports an important discovery at the ruins of San Juan Teotihuacan near this city. By excavation he has found that there were two villages, one above the other. In the corner of one of the rooms forming the group of buildings first uncovered, he found the polished stones bearing the symbolic figure of the serpent's head. He had then removed, and found under them the end of a gallery with a stone staircase. The exploration was continued along the stair and the gallery until he discovered several buildings separated by narrow corridors and forming a real village, corresponding to that of the upper floor.

The work has been done very carefully, in order to prevent any accident. The ceiling of the lower ruins is to be supported by a strong iron frame, and when this is completed it will be possible for the visitor to walk among the ruins. The stair that leads to the lower ruins is barely a hundred yards long. In the upper ruins there was found some fresco work wonderfully preserved. Opposite the place where the frescoes were found

NEW PRECIOUS STONE FOUND.

An Entirely New Mineral, Says Lenderback—To Be Called Benito.

San Francisco, Aug. 3.—Professor Geo. B. Lenderback of the university of California Thursday gave out the results of his examination of a new gem of great beauty recently discovered by two prospectors in San Benito county, Cal. Professor Lenderback says:

"The new gem is a clear, transparent blue stone with violent tints in the deep-colored portions. It rivals the sapphire in color and surpasses it in brilliancy, though it is not so hard. It is about as hard as chrysolite and harder than opal or moonstone. It turns bright red under heat, but on cooling resumes its normal color. As it is an entirely new mineral, it has been named Benito, from the county in which it has been found."

The Family Physician

The best medicines in the world cannot take the place of the family physician. Consult him early when taken ill. If the trouble is with your throat, bronchial tubes, or lungs, ask him about taking Ayer's Cherry Pectoral. Do as he says. We have no secret. We publish our formulae of all our preparations. Cough, Croup, Whooping Cough, Sore Throat, Asthma, Hay Fever, etc.

At the City Bakery!

TODAY, SATURDAY

You will find the greatest of all variety days for Bakery Goods. Come and get your Cakes, Bread and Pies for the picnic.

A FEW OF OUR SPECIALTIES:

Sunshine Cakes, Wine Cakes, Sponge Cakes, Angel Cakes, Dark Fruit Cakes, Nut Cakes, Orange Cakes and White Mountain Cakes.

Cream Puffs, 15 Cents Per Dozen.

Oat Meal Cakes, the real Scotch Oat Cakes, baked on the hearth, two for 5c. They are new in this city. Scotch Scones like mother used to make, Cookies of all kinds, Lemon Snaps, Sugar and Seed Cookies, Jumbles, Hermits and Oat Meal Perkins. Don't forget the best loaf of Bread in town, the Double Loaf of Malt Bread.

G. A. BEMIS

Telephone 12-11. 66 North Main St., Barre, Vt.

Help! Help! Help!

Nothing very serious the matter—don't get excited—but your HELP is needed.

Every man, every woman and every child can HELP. This town needs your HELP.

It is a good town, but every good citizen wants to see it become a better town. But unless the good citizens stand by the town, lend a hand, put a shoulder to the wheel or get in front and pull, without balking, there won't be any noticeable progress.

Towns are not Topics. No town "just grows." It's the people in a town and around it who make it grow by feeding it the right sort of diet.

A pig in a poke won't get fat. Nor will a town with its light hidden under a bushel attract attention from outside.

Unless you throw corn into a lean shoat the animal never will become a fat porker. It is just as necessary to feed a town and community with fresh material from the outside world.

It is up to you and each of us to get out and forage for the town. Speak a good word for it. Write a good letter for it. To you the place where you live is the most important place in the world. It is the best place in the world. It is the center of the world. The universe revolves around it.

This being so—and you can't deny it—why not HELP advertise the center of the universe? Why not tell your friends and acquaintances elsewhere what they are missing by living away from the real center?

Talk has built up many a town—every town, in fact. Talk can build up this town. You can't talk too much if you talk right.

P. S.—HELP! HELP! HELP!
